

INSTALL IBM CLOUD CLI

Date	17 November 2022
Team ID	PNT2022TMID22341
Project Name	Smart Fashion Recommender Application

STEP 1: Navigate to cloud.ibm.com and search Container Registry and get started.

The screenshot shows the IBM Cloud CLI installation page. The main content area is titled 'Installing with an installer' and provides instructions for installing the CLI. The steps are:

- Use a browser to access the official [ibm-cloud-cli-releases](#) GitHub repository, and select the installer of your OS to begin the download. The following operating systems are supported: macOS X 64-bit, Windows™ 64-bit, Linux™ x86 64-bit, and Linux™ LE 64-bit (ppc64le).
- Run the installer:
 - For Mac and Windows™, run the installer.
 - For Linux™, extract the package and run the `install` script.
- Log in to IBM Cloud:

A terminal snippet shows the command `ibmcloud login`. Below this, it says: 'Now, you're ready to manage IBM Cloud resources. Enter `ibmcloud help` to view the command descriptions.'

A tip box states: 'Tip: If you're using a federated ID, [log in with a one-time passcode or an API key](#).'

The sidebar on the left contains navigation links for IBM Cloud CLI, including 'Instance Compute Resource Identity', 'Reference', 'General IBM Cloud CLI (ibmcloud) commands', 'IBM Cloud CLI platform commands', 'IBM Cloud CLI classic infrastructure commands', 'IBM Cloud CLI Developer Tools (ibmcloud dev) commands', 'Plug-ins for the IBM Cloud CLI', 'Plug-ins for the standalone Cloud Foundry CLI', and 'SDKs for Mobile'. There are also 'Expand all' and 'Collapse all' links.

The right sidebar has a 'Feedback' button and a list of links: 'Before you begin', 'Installing with an installer', 'Installing from the shell', 'Installing to a custom directory', and 'Updating the IBM Cloud CLI'.

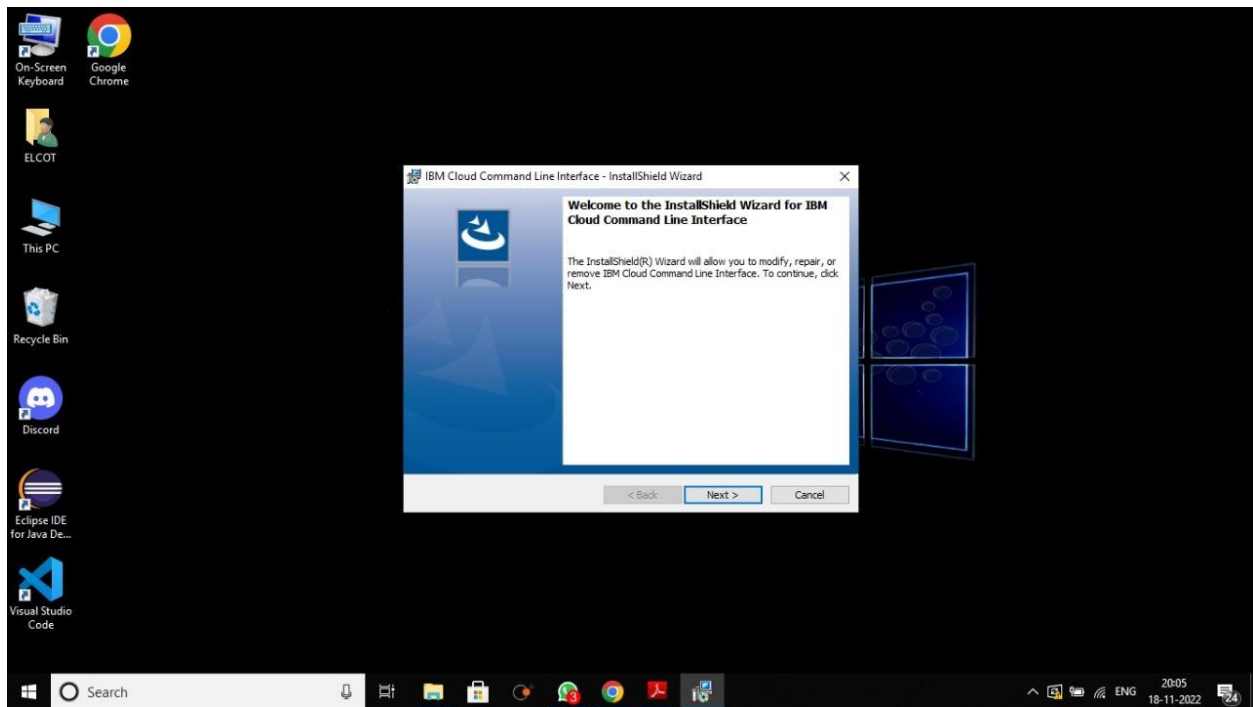

Step 2: Download Windows 64-bit installer

The screenshot shows the GitHub releases page for the `IBM-Cloud/ibm-cloud-cli-release` repository. The latest release is `v2.12.1`, published 18 days ago by `steveclay`. The page displays a list of installers for various operating systems:

- Mac OS X 64 bit
- Mac OS X M1/ARM (as-is)
- Windows 64 bit
- Windows 32 bit
- Linux 64 bit
- Linux 64 bit ARM (as-is)
- Linux 32 bit
- Power Linux 64 bit
- System/390 Linux 64 bit

The 'Binaries' section is also visible, showing a list of binaries for each platform.

STEP 3:Open the downloaded .exe file and run it to install IBM Cloud CLI

Step 4: IBM Cloud CLI is installed successfully.
